

The contract with Waste Management as the solid waste collector will end on August 31, 2017. Eagle Waste will be taking over servicing the Village of Poplar. To make this transition easier for everyone, Waste Management will have one final pickup on Friday, September 1 and pick up their containers at that time. There will not be any extra charges to the resident for this service.

Eagle Waste will be delivering their containers on Friday, September 1 with the first pickup date on Monday, September 4. Even though this is Labor Day, there will still be service.
