

**Notice**  
**Village of Poplar Snow Removal**  
**December 16, 2022**

The Village board would like to remind all residents:

Please do not plow your driveway snow across the village road and leave a bank  
on the opposite side.

This causes problems with snow build up and is dangerous.

The piled snow freezes and when attempting to remove it, it is like hitting a rock.  
This could cause an accident injuring the driver, and/or damage to snow removal  
equipment.

Also, any mailbox that is not properly placed in the ground,  
off the shoulder of the road, is in jeopardy of having it be hit  
and /or destroyed by the snow removal equipment when snow plowing.

The Village thanks you for your co-operation with these issues!
